

## CARE AND CLEANING

## HITCH

Content: 100% PVC w/Urethane Topcoat and Polyester Knit Backing

Finish: Permablok3®/Silverguard® Ion Technology

Cleaning Code: W/S General Recommendations

Clean with water-based foam or upholstery cleaners or dry cleaning solvents. Do not saturate with liquids.

Regular Maintenance: Clean monthly with a clean soapy white cloth and rinse thoroughly.

---

### Remove most stains with one of the following steps:

Step 1 Remove excess spill with damp cloth. Clean with a 1:1 mix of Ivory soap and water. Rinse with clean water and dry.

Step 2 Use a straight application of concentrated cleaners such as Formula 409® or Fantastik® spray cleaner. Wipe with a clean cloth, rinse with clean water and dry.

Step 3 Use a 1:1 mix of ammonia and water or a 1:4 mix of bleach and water. Rinse with clean water and dry.

Step 4 Use a 1:1 mix of isopropyl alcohol and water. If the stain persists, use straight alcohol. Rinse thoroughly with clean water and pat dry.

*Note: For cleaning that requires step 4, use a soft cotton cloth saturated with the cleaning material and rub the stain in circles 10 times. Pat dry with another cloth and check the results.*

---

### Approved Cleaners and Disinfectants

This list represents some of the most common cleaners and disinfectants and is not intended to be comprehensive. It is wise to test other cleaners to insure that no adverse effects are noted after repeated exposure. Follow recommended dilutions of the manufacturer.

### **Rinse all cleaning agents thoroughly with water and wipe with a soft cloth.**

Residue left by cleaning agents will degrade and shorten the life of the product, as well as change the appearance. Cleaning results may vary. Denim and ink stains may become permanent. Note that the misuse of disinfectants, particularly the failure to rinse, is the major source of surface deterioration and would negate any warranties.
