

Product Name: Capote

Content: 100% Polyurethane (Polycarbonate) with Polyester Knit Backing

Finish: Ink and Denim Resistant, Superior Stain Resistance

Cleaning Code: W/S

Soap and water, alcohol and bleach resistant.

General Maintenance:

Anzea coated fabrics are inherently stain resistant, however, it is important to keep them clean to maintain the original look and feel. Clean the surface with a detergent or general-purpose cleaner as a first step because it physically removes soil, organic matter, and many germs from the surface. Rinse the surface with clean water or wipe down with a fresh water wipe.

Food Stains/Oils

Mustard. Ketchup. Chocolate. Tea. Coffee. Salad Dressing

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, clean with mild soap and water. Rinse with fresh water and wipe dry. For stubborn stains spot clean with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Healthcare/Disinfection

Blood. Urine. Betadine

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Disinfection: This material will withstand a 20% solution of household bleach and water. It is important to rinse the cleaned area with fresh water after applying the bleach solution.

Ink Marks/Graffiti

Ball Point Pen. Permanent Marker

Rub the affected area with a dry soft cloth with firm pressure. If some stain is still present, spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Note: Removal of ink, particularly permanent marker, may vary depending on the period of time the ink sets. While this material offers excellent protection, full removal is not guaranteed.

Denim Dye Transfer

This material is designed to withstand the transfer of most types of indigo dye. In the case that a faint dye transfer is visible, this can typically be removed with a 70% dilution of isopropyl alcohol and water.

Note: Removal of indigo dye, particularly from wet jeans, may vary depending on the type of denim. While this material offers excellent protection, full removal is not guaranteed.

**Denotes those with active ingredients consistent with EPA reports for use against SARS-CoV-2, the virus that causes COVID-19. The efficacy cannot be tested and verified.*

DO NOT USE: Asepticare TB-11, Cavicide, Clorox Broad Spectrum, Oxivir TB, Precise Spray, Sani-Cloth® Plus, Sani-Cloth® Bleach Germicidal Wipes or Wex-cide® 128

Rinse thoroughly after the suggested waiting period with clean water and wipe with a cloth to dry. Residue left by cleaning agents will degrade, shorten the life and affect the products appearance if not removed.

Cleaning recommendations above are a guide to product care. Per Anzea's warranty: The warranty does not cover puddling, ink stains, dye stains, cuts, punctures, burns and forms of abuse including those that are unintentional. **The warranty does not cover damage resulting from lack of cleaning, misuse of cleaning agents or the use of inappropriate cleaning agents for the product or the failure to rinse the product after cleaning or disinfecting.**
