

# Complete Care and Cleaning Guide

**Product Name:** Not-A-Hide

**Content:** 100% Vinyl with Polyester Knit Backing

**Finish:** Superior Stain Resistance built into the material, not a top-coat

**Cleaning Code:** W/S

Soap and water, alcohol and bleach resistant.

## General Maintenance:

Anzea coated fabrics are inherently stain resistant, however, it is important to keep them clean to maintain the original look and feel. Clean the surface with a detergent or general-purpose cleaner as a first step because it physically removes soil, organic matter, and many germs from the surface. Rinse the surface with clean water or wipe down with a fresh water wipe.

## Approved Cleaners

3M™ HB Quat #25\*

Bleach-Rite® Disinfecting Spray with Bleach\*

Bleach Solution\* (20% Dilution)

Clorox Healthcare® Hydrogen Peroxide Disinfectant\*

Dispatch® Hospital Cleaner Disinfectant Towels w/ Bleach\*

Fantastik® Spray Cleaner

Formula 409® All Purpose Cleaner

Hydrogen Peroxide (3% Concentration)\*

Isopropyl Alcohol (70% Concentration)\*

## Food Stains/Oils

**Mustard. Ketchup. Crayon.**

Sponge with mild soap and water. For stains that may have set, use a cloth soaked in diluted mild detergent with gently rubbing. Any remain stain should be washed with diluted bleach. Rinse repeatedly with clear, cold water.

**Candy. Chocolate. Ice Cream. Coffee. Salad Dressing. Soda. Tea. Fruit. Liquor. Wine. Suntan Lotion.**

Any loose material should be gently scraped with a dull knife. Then use clear, lukewarm water and sponge repeatedly. Any soil remaining after drying should be gently rubbed with a cloth spotted with a mild detergent solution. Rinse thoroughly with clean water.

## Healthcare/Disinfection

**Blood. Urine.**

Clean with a 10% solution of household bleach and cool water. Disinfect with a 20% solution of household bleach and cool water. It is important to rinse the cleaned area with fresh water after applying the bleach solution.

## Difficult Stains

**Mascara. Lipstick. Grease. Oils. Hairspray**

Clean the soiled area with a 70% solution of isopropyl alcohol (rubbing alcohol) and water. It is important to rinse the cleaned area with fresh water and wipe dry.

*\*Denotes those with active ingredients consistent with EPA reports for use against SARS-CoV-2, the virus that causes COVID-19. The efficacy cannot be tested and verified.*

**Rinse thoroughly after the suggested waiting period with clean water and wipe with a cloth to dry. Residue left by cleaning agents will degrade, shorten the life and affect the products appearance if not removed.**

Cleaning recommendations above are a guide to product care. Per Anzea's warranty: The warranty does not cover puddling, ink stains, dye stains, cuts, punctures, burns and forms of abuse including those that are unintentional. **The warranty does not cover damage resulting from lack of cleaning, misuse of cleaning agents or the use of inappropriate cleaning agents for the product or the failure to rinse the product after cleaning or disinfecting.**
