

Complete Care and Cleaning Guide

Product Name: Techy

Content: 100% Vinyl with Polyester Knit Backing

Finish: Superior Stain Resistance

Cleaning Code: W/S

Soap and water, alcohol and bleach resistant.

General Maintenance:

Anzea coated fabrics are inherently stain resistant, however, it is important to keep them clean to maintain the original look and feel. Clean the surface with a detergent or general-purpose cleaner as a first step because it physically removes soil, organic matter, and many germs from the surface. Rinse the surface with clean water or wipe down with a fresh water wipe.

Prompt cleaning is always recommended. Clean monthly with mild soap and water. For more persistent stains use undiluted isopropyl alcohol or a 3:1 bleach solution.

Remove most stains with one of the following steps:

Step 1:

Mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

Step 2:

Wipe affected area with a soft cloth or soft bristle brush using a non-abrasive cleaner, for example Formula 409® or Fantastik®. Rinse with fresh water and wipe dry.

Step 3:

10% solution of household bleach and water. Rinse with fresh water and wipe dry.
25% solution of alcohol and water. Rinse with fresh water and wipe dry.

Rinse thoroughly after the suggested waiting period with clean water and wipe with a cloth to dry. Residue left by cleaning agents will degrade, shorten the life and affect the products appearance if not removed.

Cleaning recommendations above are a guide to product care. Per Anzea's warranty: The warranty does not cover puddling, ink stains, dye stains, cuts, punctures, burns and forms of abuse including those that are unintentional. **The warranty does not cover damage resulting from lack of cleaning, misuse of cleaning agents or the use of inappropriate cleaning agents for the product or the failure to rinse the product after cleaning or disinfecting.**
